PERSONAL PROJECTS

BUILD A 3D PORTFOLIO WITH REACT THREE FIBER - AVATAR ANIMATIONS

3D Portfolio with Animated Avatar using React Three Fiber

- Frontend: Built using React.js and @react-three/fiber to create an immersive 3D experience.
- 3D Character: Designed and downloaded a custom avatar using Ready Player Me in .glb format.
- Animation: Applied animations from Mixamo by converting .glb to .fbx using Vertopal for compatibility.
- Shadows: Implemented realistic contact shadows using <ContactShadows /> from @react-three/drei for depth and realism.

3D INTERACTIVE PORTFOLIO WITH SCROLL ANIMATIONS – REACT THREE FIBER & FRAMER MOTION

Tech Stack: React.js, @react-three/fiber, Framer Motion, GSAP, Tailwind CSS

- UI/UX: Built a fully responsive interface using Tailwind CSS, with autocompletion for rapid styling.
- Scroll Animations: Used Framer Motion, GSAP, and useScroll() to add smooth 2D/3D scroll animations and background color transitions.
- Avatar Animation: Synced a 3D avatar's animations with scroll positions across different sections of the page.
- 3D Project Slider: Created an interactive 3D project showcase slider for portfolio presentation.
- Camera Control: Animated the camera position and view based on menu open/close interactions.
- Multimedia Integration: Embedded video textures into a 3D computer model for a realistic effect.
- Performance Enhancements: Added a custom loading screen, ensured full responsiveness, and fine-tuned all animations.
- Contact Form: Integrated a working contact form for seamless communication.
